Fox, John: *One-Wall Tennis*, Jan., p. 32.
Larson, Charles L.: *Cutoff System vs the Lob in Doubles*, Apr., p. 52.
Parham, Tom: *Tennis Practice Targets*, Jan., p. 18.

(Concluded on page 48)

Why be too loose or uptight?
Get a shoe that fits you right.

Most track shoes come w-i-d-e. Then you have a long lace operation to make them tight so they will give you some kind of fit. NEW BALANCE shoes are different. They come in exact widths. It's easy to get a comfortable, correct fit. The shorter lacing gives you a more flexible vamp for easier running action. Special design based on orthopedic principles gives you natural foot action which helps prevent foot, leg and knee problems. The Ripple sole absorbs shock, reduces fatigue and improves traction. More real features than other track shoes. Find out for yourself.
